❧ ❧ ❧ INTRODUCTION ❧ ❧ ❧

It gives us great pleasure to present this little catalogue to our many customers and friends. A fine growing season has enabled us to offer many of the best and most sought after varieties, at greatly reduced prices. The collection we offer embraces the introductions of such noted hybridizers as Childs, Kunderd, Diener and others. Here is your opportunity to buy the best at reasonable prices.

❧ ❧ CULTURAL DIRECTIONS ❧ ❧

Set the bulbs from 6 to 9 inches apart and about 4 to 5 inches deep. Plant as soon as the earth is in a mallow condition usually after trees are out in leaf and until June 15th. All that is required is fairly good soil and enough attention to keep the weeds down. In the fall, before hard frost, take up the bulbs, remove the tops and leave to dry in the air for a few days. Store in some cool place secure from frost to be planted again the following year.

❧ ❧ ❧ ❧ TERMS ❧ ❧ ❧ ❧
